NAUTOLEX®

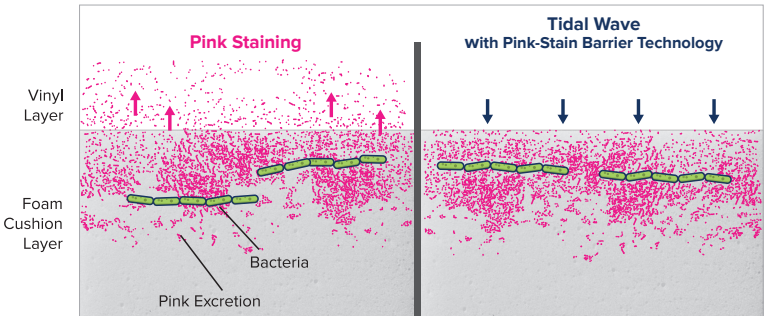
Tidal Wave™

with Patent-Pending Barrier Technology Protects Against Pink-Staining in Marine Vinyl

Marine upholstery exhibiting pink staining

Tidal Wave™, with OMNOVA's New Barrier Technology, Boasts a 3-Year Anti-Pinking Warranty*

Tidal Wave™ marine vinyl upholstery with OMNOVA's new barrier technology offers unmatched pink-staining resistance for boat builders and their customers. This innovative, patent-pending technology creates a barrier to pink discoloration of the surface of marine vinyl upholstery caused by microorganisms that sometimes grow inside marine seat cushions.



Magnified cross-section of a marine seat cushion illustrating the pink staining process (left), and how **Tidal Wave** *upholstery resists discoloration (right).*

How does Tidal Wave work?

Tidal Wave upholstery includes new patent-pending barrier technology that prevents migration of the pink dye excreted in the staining process. As such, the pink excretion does not travel through the vinyl material to the surface.

For boat manufacturers, **Tidal Wave** with pink-stain barrier technology can avoid costs for repairs and replacements, and can help protect and preserve a brand's image.

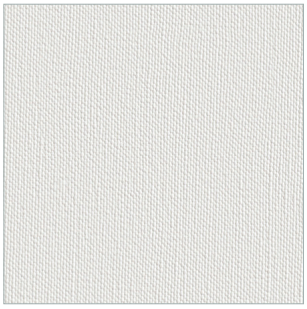
*__Nautolex Tidal Wave__ offers a three-year warranty that begins at the time of purchase.

Tidal Wave

Available Designs

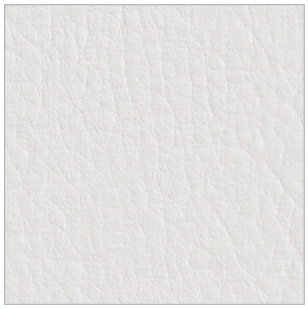
Tidal Wave is available in white for the following **Nautolex** marine upholstery products:

Voyager Pure White
536850



Silken Pure White
536851

Capitano® Pure White
536872



SofDura® Pure White
536935

Features & Benefits

Barrier Technology

Includes new patent-pending barrier technology that prevents migration of the pink dye

Easy Fabrication

Features the same soft hand and workability as other **Nautolex** products, enabling easier sewing and better fit

PreFixx® Finish

For superior resistance to staining from outward elements, including suntan lotion, food, drinks and a wide range of other staining agents

3-Year Warranty*

Tidal Wave offers a three-year anti-pinking warranty that begins at the time of purchase
